

Idaho Guided Wolf Hunts

Mid to late winter is the best time to hunt wolves in Idaho. The wolves follow the elk and deer migration down to winter range after December. We offer fully guided hunts from pick up and/or snowmobile. This is a fun and very challenging hunt, with long range shots most common. Spot and stalk, tracking and calling can be effective this time of year. The cost is \$3500 + tax and license and tags. Each hunter can buy 2 tags. The hunt includes 5 fully guided days of hunting, meals and accommodations.
